Salt Lake City, UT 84114-6300

Dear Mr. Kent,

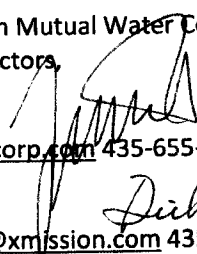

We are contacting you with an urgent request that you avail yourself to meet with us at the soonest date possible. We represent 100 Homeowners in the Holiday Ranch Subdivision in Park City Utah that pump water from a historical water ditch in the Silver Creek drainage.

Precipitously, our (1875) Water Rights were not only suspended on the afternoon of July 9, 2012 but, in fact, the gate was closed and the flow of our water was completely shut down. This unprecedented action of a total shutdown has no historic parallel and was done without adequate notice to inform water users. The above matter was handled in, at best, an unprofessional and, at worst, illegal manner. It could not have been handled worse. Simple common decency would have provided a better outcome.

We have a number of unanswered questions and grave concerns about this unorthodox turn-of-events. We represent 100 angry and confused property owners who cannot conceive of this inconceivable, abrupt and unannounced cutoff. We speak with their voices. We need to talk and quickly! This matter is of urgent and immediate importance to our constituents and our community.

Please respond as soon as possible,

Holiday Ranch Mutual Water Company
